SMART TRACK Solutions for corporates

INNO APPS INDIA SMART TRACK (Employee Transport Solution (ETS)) for employee transport management is offered as a service (SaaS) and used to track employee cab usage records, provides automated billing with reduced discrepancies and carries safety features for female passengers. Our most comprehensive transportation solution provides transport managers and transport administrators complete control and visibility over their transport operations in real-time.

Smart Track Is Developed Keeping In-View The Requirements Of Transporters, Cab Operators, Fleet Owners, Bus Operators Etc. It Gives All The Relevant Users, Means Of Tracking Their Vehicle, Know The Speed And Status Of Fuel Etc. Software Solution Is Integrated With Multiple Maps Like Microsoft's Bing Map And Google Map So User Can Easily Find Vehicle's Location. Smart Track Offers Number Of Reports Which Gives Detailed Information About Vehicle Last Travel Details, Route Details, Milestone Achieved And Complete Information Of Driver Along With License Details And Other Reports. System Can Generate Alerts In The Form Of SMS/E-Mail Or Push Notification.

Smart Track Offers Number Of Reports Which Gives Detailed Information About Vehicle Last Travel Details, Route Details, Milestone Achieved And Complete Information Of Driver Along With License Details And Other Reports. System Will Generate Alerts In A Form Of SMS, E-Mail And Push Notification.

Feature of Smart Track;

- Efficient Route Optimization
- Safer Employees
- Significant Cost Savings
- Paperless and accurate billing
- Real time vehicle tracking
- Insightful Data Analytics
- Comprehensive Vehicle & Driver compliance

Smart Track Admin application

Following modules from Smart Track---

- ◆ Smart Track Mobile Driver Application
- ◆ Smart Track Mobile User Application
- ◆ Smart Track Admin Cloud Solution
- ◆ Smart Track Admin Monitor

PAPERLESS and ACCURATE BILLING

Our in-cab touchscreen device which we install in all the vehicles, captures the tripsheet in electronic format. Billing becomes more accurate and paperless, saving tons of paper.

INSIGHTFUL DATA ANALYTICS

Route Optimization
Our patented routing algorithms calculate the optimized routing for the cabs or buses so that there can be maximum employees who can be picked along a route.

EFFICIENT ROUTE OPTIMIZATION

Our solution provides comprehensive analytics dashboard and extremely useful reports like On Time Arrival Report, Vehicle Utilization Report, No Show.

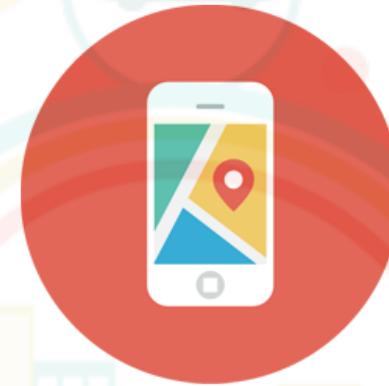

SAFER EMPLOYEES

Our solution enhances the safety of all employees during transit by intelligent routing calculation to plan routes that avoid female passengers as first or last pick or drop.

COMPREHENSIVE VEHICLE & DRIVER COMPLIANCE

We allow comprehensive vehicle and driver compliance to be maintained by tracking information such as age of vehicles, insurance, road tax, commercial permit and pollution certificate expiry dates and driver background check information. Alerts can be configured to send compliance reminders.

REAL TIME VEHICLE TRACKING

Our Real time Vehicle Tracking, based on a combination of GPRS & SMS messaging allows to track vehicles even while they are out of coverage area.

SIGNIFICANT COST SAVINGS

Our solution leads to the right sizing of the transport capacity and removes any excess vehicles from the fleet. This leads to upto 20% cost savings on the entire transportation costs for your company.

TRANSPORT ADMIN TEAM

OPTIMIZATION

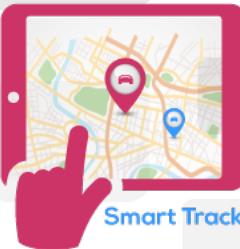

Advanced routing software for maximum occupancy, safety of female employees and minimum travel time

DIGITAL TRIPSHEETS

All the trip metrics are captured digitally through driver app thus improving accuracy, transparency and completely eliminating paper.

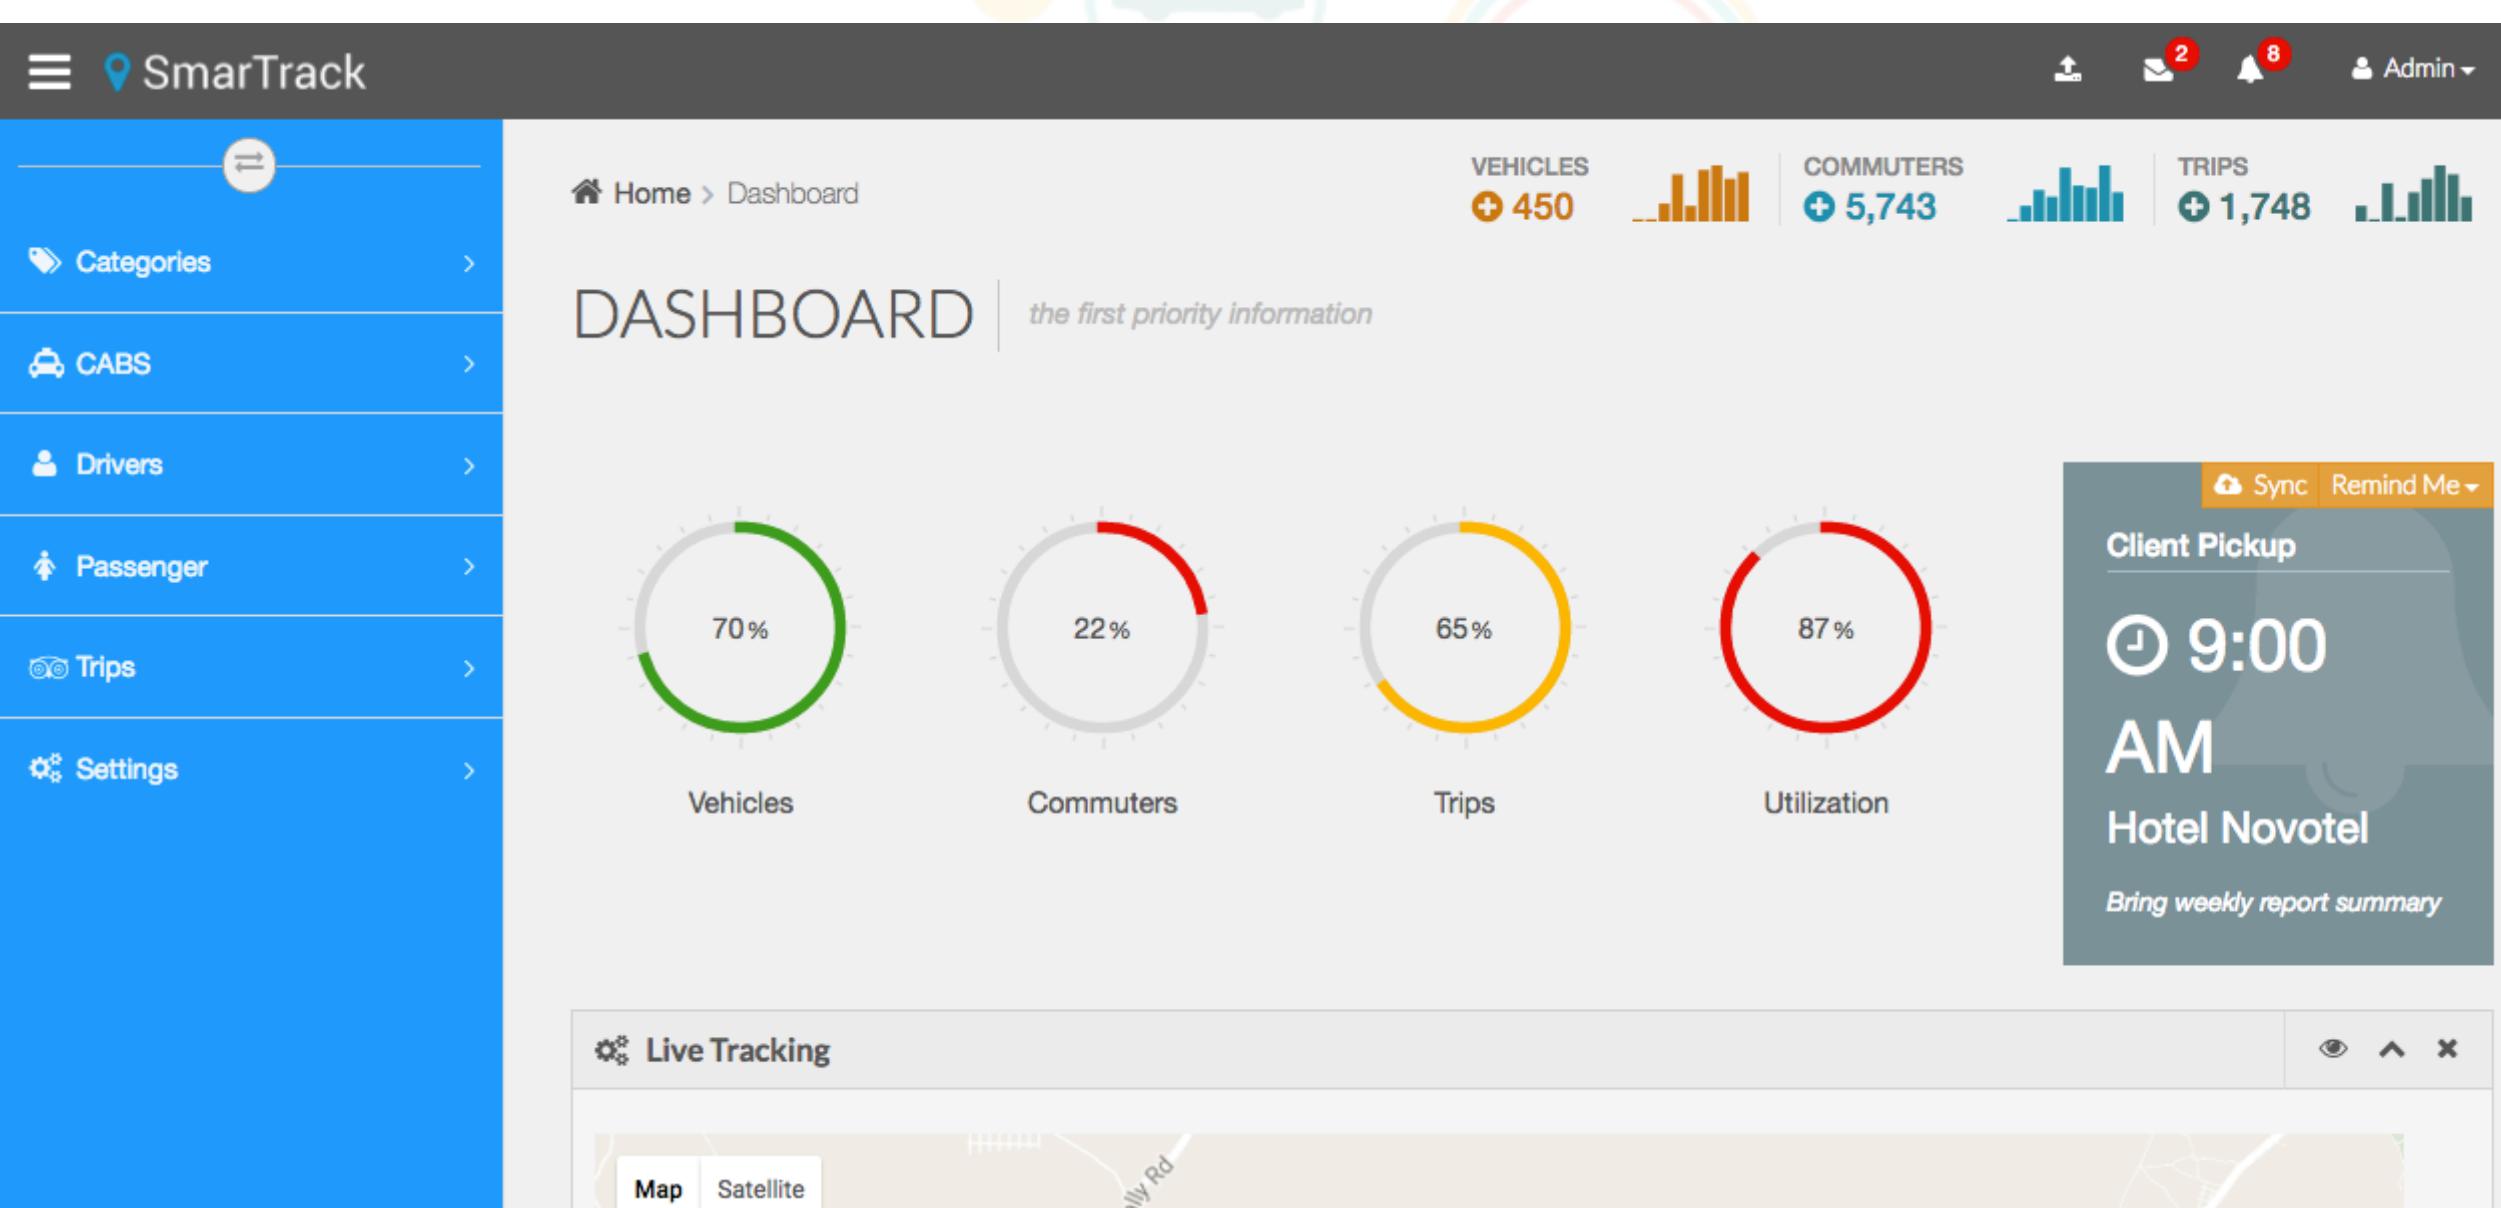

INSTANT BILLING

All the trip metrics are accurately captured in real-time thereby eliminating the need for manual verification and invoices can be generated instantly.

SMART TRACK on Android TV

INNO APPS INDIA SMART TRACK allow admin to track cabs on big screen.

The image shows the Smart Track Android TV dashboard interface. At the top, there is a header with the title "SmarTrack" and a navigation menu. The dashboard features a central "DASHBOARD" section with a subtitle "the first priority information". It includes four circular progress indicators: "Vehicles" (70%), "Commuters" (22%), "Trips" (65%), and "Utilization" (87%). Above these indicators, there are summary statistics: "VEHICLES + 450", "COMMUTERS + 5,743", and "TRIPS + 1,748". To the right, there is a "Client Pickup" card with details: "Sync", "Remind Me", "Client Pickup", "9:00 AM", "Hotel Novotel", and "Bring weekly report summary". At the bottom, there is a "Live Tracking" section with a map showing a route from "Jally Rd" to "Jally Rd". The map has "Map" and "Satellite" options. The overall interface is designed for easy monitoring and management of vehicle and passenger data on a large screen.

SMART TRACK on Android TV

INNO APPS INDIA SMART TRACK allow admin to track cabs on big screen.

The image shows the Smart Track Android TV dashboard. The top navigation bar includes a menu icon, a location pin icon, and the text "SmarTrack". On the right are icons for a file (2), an envelope (8), and a bell, with the text "Admin" next to it. The dashboard header features a house icon, "Home > Dashboard", and three main statistics: "VEHICLES + 450" (orange), "COMMUTERS + 5,743" (blue), and "TRIPS + 1,748" (green). Below this is a large "DASHBOARD" section with the subtext "the first priority information". It displays a circular progress bar at 70% and a timeline for a trip on "FEB 16th" from "1555" to "1554". The timeline details include: VENDOR (SGT), DRIVER (SRIKANTH), VEHICLE (KA03MM8923), CONTACT (9900332299), DISTANCE (9.5 Kms), and TRAVEL TIME (25 Mins). The timeline shows "Driver Started" at 4:30 AM and "Vishwas" at 5:10 AM. The timeline also includes "Kishore", "Rajath", and "Company" points. A "TRACK" button is located at the end of the timeline. Below the timeline are four categories: "Vehicles", "Commuters", "Trips", and "Utilization". To the right, a "Client Pickup" section shows a clock icon for 9:00 AM, the location "Hotel Novotel", and the text "Bring weekly report summary". At the bottom, a "Live Tracking" section shows a map with "Map" and "Satellite" options.
